“ I first met Carolyn early in my PE career when visiting the Norcross Tech center to assist with post sales support activities or conduct a customer training class. It was very easy to recognize Carolyn's love for PE, her passion for our customers, and her support for our management team. After we physically moved down to the Suwanee area from Baltimore, she became a trusted colleague. As time progressed, she more importantly became a trusted friend, which everyone needs to be successful in life. There are simply times you need the truth when dealing with personal and professional situations; and during those times when asked "Boy, could she tell the Truth"!! If you know Carolyn, you KNOW what I'm talking about. But there was never any intent to hurt; her definition of being a friend was to maybe tell what you NEEDED to hear; not necessarily what you WANTED to hear. I quickly realized she spoke out of love and compassion. Professionally, her "theme" was to always do the right thing for both PE and our customers, always be accountable and give your best, and don't take shortcuts. For me, working with her for so many years on demo inventory, the implementation of these principles never became more evident to such an impactful degree that my personal and professional philosophy have been significantly influenced and shaped as a result. Even with the medical challenges these past several months, her sense of inner peace and unwavering faith has been an inspiration to many without question, because she realized the greatest rewards are not found here. I've had this recurring thought this week that perhaps one of her last prayers might have been to leave this world in her beautiful home that she shared and decorated with Dan that she cherished, surrounded by those that she loved and was loved by. My last thought is that there's the overwhelming and tremendous sense of loss, but I take comfort in the notion that her mission here is complete and she has been called home and that I consider myself extremely honored and blessed to have had Carolyn in my life for so many years. Rest in peace, my friend, but know you were cherished, loved, and respected by so many and that your legacy & impact and on us continues...

“ *Miss Carolyn and I were work friends for many years. We shared best practices with each other as we managed our Technical Centers. We overcame frustrations and celebrated victories as we navigated our 40+ years. She was not only a very trusted colleague but also a friend. She shared so many happy moments of her girls and Granddaughter Kayla. I felt like a knew you all. We should all aspire to be as lovely as she was. She was one of a kind. Blessings to all.*

Carolyn was my best friend and it deeply saddens me that she is no longer here with us. She was a true friend and confidant. We shared so many wonderful times together and always had a lot of laughs. She may be gone but she will always be in my heart. Rest in peace my dear friend. Love you, Janice White

“ Like so many in the PerkinElmer family, I have many fond memories of Carolyn. She was always the first one to greet you when you entered the tech center with a warm smile and conversation and was the last one you saw on your way out at the end of the day. She was the heart and soul of that tech center and kept it running smoothly. She made sure that we visitors had everything we needed. There's a little bit of Carolyn in the Chicago tech center as well, as she helped us tremendously as we designed that new facility with all of her lessons learned from the Atlanta tech center. She will be missed by so many that she touched and influenced.
