“ Christina was my best friend. We met in 2006 and shortly after became extremely close. We did everything together. I remember her beautiful daughter Selena as a baby. I was in the hospital with Christina when her child's father passed away. We were always there for each other during the good and bad times. The thing about Christina is she was the strongest most loyal person I've ever had the pleasure to know. There was nothing she wouldn't do for me and vice versa. It has taken me quite some time to write this because it makes it real. I have her pictures in my house and even now it's still hard to believe that I can't pick up the phone and call her. Christina I love you with all of my heart. I remember our conversations about how I went to Georgia state and how I wanted her to go to college and make a future for herself which she was always determined to do. I was so proud of her when I found out she Applied to Georgia state And graduated and created an amazing career for herself. She was determined to be someone her Family would be proud of and I believe she accomplished that. There is nothing she couldn't do when she put her mind to it. My beautiful friend I know you're in a better place. I miss you with all of my heart. You are an inspiration to me and every day. I see your pictures when I walk around the house I know you would say not to feel sad but to go out in the world and live my life to the fullest and accomplish all of my goals. She was never the type to tolerate weakness lol. I've never met anyone so incredibly beautiful and so strong. You are always in my heart and I will never forget you, I think about you all the time and I love you with all of my heart. I thank God for allowing us to be with you as long as we could, and I know you're in a better place. Until we meet again, my dear friend ❤️
