“ *Dad did not die from Alzheimer's but elder abuse by his wife neglecting his medical care and continued to give him alcohol causing many falls and leaving him alone. She and my siblings ignored the video I sent them all August 10, 2019 dad stating his wife was not helping him with severe chest pains it was pneumonia they ignored. Do not ignore elders symptoms because it might be too late. She put him in Hospice and did not want to pay fo his recovery. She let him starve and have no fluids to his horrible death. Dad did not want this and no longer trusted her he told me. She spent her money and dads share on herself not my dads care he was neglected and abused. Fight for elder abuse and get rights to the children not the step mother. Dad am so sorry I fought and will continue to protest to make a difference telling our story. I am sorry your quality wife kept me from your funeral and saying good bye. She also denied his first granddaughter saying good bye before he passed telling Kay to blame your mother. Dad God will take care of all of them for causing your underserved forced early death. I am so sorry she kept me from spending time with you since June 14, 2019 alone all day while she worked at Brown's Jewelry in Roswell. I would have gotten you the best outside medical care but she would onto spend the funds according to the states's investigation. Daddy I will never let what she did to you rest. I love you #1 Kerry*
