“ *It was such a pleasure working with Isla at Toy Mania. My favorite memory working with Isla (besides out Top Golf Christmas party) was one night she was so hyper and she was just walking around and Trust Falling on everyone. It was absolutely hilarious and I wish I still had the videos from it. It was an honor to know her.*

“ I am a neighbor and I was Isla's 7th grade life science teacher at Northwestern Middle School. Isla was one of the hardest workers of any of my science students and she was an easy student to root for because of her dedication. Being a neighbor, I have had a few conversations with Isla over the years and her delightful personality and her dedication to anything she tried has made this world a better place to live.

Condolences to the Russell Family.

“ I had the joy of teaching Isla her 9th grade year in Biology and again last year for her senior year science. She had such a beautiful spirit. Her 9th grade year, she rallied her classmates and threw a surprise party for my birthday. I walked into a decorated classroom complete with all the makings of a party. One student played guitar and Isla and another student sang. This is truly one of my fondest memories from my 14 years of teaching. She always had a smile on her face and was so kind to everyone around her. She will be missed more than could ever be put into words.

“ I taught Isla Algebra at Milton her freshman year. She was such a bright light in my class. I recall her helping others, poised and confident beyond the others. She worked and studied harder than all the others. I also watched her grow and mature the following two years intent on always doing her best and being a friend to everyone. I will never forget her. She was every teacher's dream student. My heart hurts for your loss.
