“ John was an amazing teacher at North Hagerstown High School in Hagerstown. His enthusiasm and love of biological science was contagious. As a fellow science teacher at a different school, I always enjoyed talking with him. May God give you comfort, strength and peace as you cherish memories of special times.

*Hello Rose. This is Joel Stouffer, John's youngest son. Thank you so much for your kind words! I live in Atlanta and my parents moved here eight years ago. They celebrated their 60th wedding anniversary soon after they arrived. I was lucky to get to spend all that time with them and it was much easier than dealing with them in Maryland. My dad was 92 years old and had a full and interesting life. His final days were very peaceful. Again, thank you very much for taking the time to comment. It means a lot.*
