“ *Louie and I were best friends from childhood until I was 20 when life led us in different directions and locations. Louie was literally closer than a brother to me. We did everything together for so many years. Louie was one of the funniest people I have ever met and I always knew I would have a great time around him. My mother called me with this news -- all I can say is I'm just numb right now to the top of my head to the tips of my toes. I loved Louie!*
