“ *I am very sorry I was unable to attend Aunt Maurine's funeral. I have not been well for several years now. But, my favorite story of her was one summer when Mom and Dad went somewhere and left us in Mississippi. Aunt Maurine was so kind to us. She took us fishing and when we took our catch inside for cleaning, she gave us a biology lesson. She dissected those fish and identified every internal organ they had. At the time, I don't even know if I knew she was a teacher but it was very apparent to me she had a love for learning and teaching. She was a very special person who touched many people in her very long life. Way to go in reaching 100!!!....I hope we all as fortunate.*
