“ To my brother Miles,

You always told me that you asked the "Good Lord" to let you be here until you reached 80, and you made it to 81...how great was that? Because there was 16 years between us, I don't remember us being really close but that didn't mean that I didn't cherish the time that we did have together.

I especially remember the time you thought you would help me get rid of a loose tooth. I was 5 or 6 years old and you convinced me to tie a string around that tooth while you attached the other end to the door and was ready to slam it shut when mom put a halt to that. Or the time I had written my Christmas letter to Santa and you told me the only way he would get it is if we burned it and I let you set it on fire. Boy was I ever dumb. That must be where that salesmanship that you perfected throughout your lifetime never let you down. I am forever grateful for all the family reunions we had together with all of our families and the stories you and Don and Sam would tell growing up and the trouble the three of you would get into. Then when Tom came along he got to be included in the fun.

I always appreciated your caring for everyone and wanting the best for all of us no matter what. You were always helpful and encouraging, thank you for that.

Luz and I chuckled over your famous line at every get together the last few times, "This might be the last time you see me". Sadly the last time was almost 2 years ago in Gatlinburg, but I am so glad we all got to see you.

I pray Heaven is everything you knew it would be, till we meet again...all my love.

“ Ten things I loved about Miles:

- 1) *His faith was unwavering. He would share his love of our Lord with who ever would listen.*
- 2) *He was helpful and glad to share any knowledge he had.*
- 3) *He wasn't afraid to try new things. I remember when he started his limo business, he said he'd do it till it wasn't fun any more...this was part of his...*
- 4) *Sense of adventure, how brave was that?!*
- 5) *He was sincerely interested in the people he met.*
- 6) *He was thoughtful, putting others needs in front of his own.*
- 7) *Miles always made the effort to keep in touch with family and friends. Whether attending a Duley reunion, a class reunion in Boone or reaching out in between events to see how every one was faring. He took the time and truly enjoyed catching up with people.*
- 8) *His love of family and pride in their accomplishments was always apparent.*
- 9) *He had a great sense of humor and always made me smile with his stories or quips. One time I asked about his children and he said, "They're like rabbits. They go away, multiply and come back!" "Company is like fish, after a few days they both begin to stink!"*
- 10) *But most of all, he was my father's brother. He was family. I loved him and he will always be near and dear to my heart. Rest in peace, dear Miles! Luz and family*

“ As a child I didn't get to spend a lot of time with Uncle Miles and his family as we always lived too far apart. As an adult I spent time with him at family reunions and more recently at Gatlinburg. After my Dad, his brother Don, passed we shared a ride back to the airport in St. Louis. That day he shared his wisdom with me on life and going on after the death of a precious loved one. I will carry that with me til I pass on and know my family will do the same.

Uncle Miles was a very wise man. It kind of ran in his family of brothers and his sister. He will continue on in the memories of us all and will continue to do his "work" while watching over us. Rest in peace, Uncle Miles and know you are loved by us all!
