Ralph wea one great guy. I met him in the Air Force and we worked together in Northern Michigan keeping the F-101 interceptor's weapon control system in ready shape. Then after the Air Force, I was a field service engineer in Denver with the NCR company and ran into him again. He was there with his family and looking for a job... so I took him down to meet my boss. He took the entrance tests and passed and accepted a job. Not long after I got promoted to a job in California and kind of lost touch with him. But being in the NCR " family, I kind of kept tabs on him. The last I heard, he had moved to Louisiana. Ralph, I know you're up in heaven looking down on all your children, grand children, and great grand children... Hope to see you again soon. Dennis Hull Ps; Thanks Google for finding my old buddy 😊
