“ Richard was my next door neighbor since 1987. Ever since our 1st meeting over the back fence, we shared in working on projects. Everything from basement finishing to cutting down trees. His knowledge was invaluable in home improvements. We worked well together, he was the brains and I was the brawn. We probably played harder than we worked. We enjoyed his hot tub for aching backs, cold beers, 1/2 cigars, sports TV thru rain, shine or snow. We were both crazy about Blues R&R music seeing John Mayall & local blues acts live. We also attended live Nascar & football sports events. He taught me the art of civil war relics hunting. He was a very talented man (a jack of all trades.) Richard's Dad educated me on the importance of the USAF's Titan II Missile program at VAFB, CA. to NASA's Gemini Space program at Cape Canaveral. His line of work inspired my art. Also he told me memorable stories about Zizzen's Bowery in Miami (40's-50's). I was very fortunate to have known both of them. Who knows they maybe tinkering around up there, making sure the "Pearly Gates" are in proper working order. RIP My Friends

“ *Richard was one of my best friend, it is so difficult and almost impossible to believe he has passed on to be with the Lord and join the members of his family that have passed into heaven. Richard and i shared a deep love for civil war history and were determined to gather as much of the remnants of that era as possible, but beyond this and far above what we shared in. our love for this hobby was we shared in our love for God, family, and country, I can't think of a single time that Richard was not doing good for others. He is the perfect embodiment of Christ in you. Richard and his family are by far some of the finest folks you could ever know .My prayer is for the spirit of almighty God to overshadow and comfort the entire family with His love in a most powerful way Amen Rest in peace dear brother*
