“ I have known Dave for many years and have had the pleasure of working with him at Lockheed for at least 10 years or more. Dave provided a wealth of personal ability and professional experience that enabled him to provide effective engineering support of a wide variety of manufacturing and customer supporting tasks. He will be missed by all who knew him here at Lockheed.

“ Peggy and Family,

Sue Ann and I send our condolences on the passing of David.

David and I sat in oppisite cubicles at LMAC and I missed him very much after he left work last March.

My thoughts and prayers are with you and your family at this time of sorrow -- and for the difficult times of readjustment that lie ahead.

Love and Best Wishes,

Colin and Sue Ann Pollard###imported-begin##Colin Pollard###imported-end##

“ Dave was a wonderful friend and a gentle soul. We've worked
together for many years and weathered many a storm supporting
the C-130s. I'm fortunate to have known him and grateful to have
benefited from his knowledge and experience, always knowing that
the aircraft's structural integrity was never compromised. Dave had
the unique ability to work with others on common ground and to
make everyone feel a part of the solution, not just of the problem.

Dave is now a peace and free of pain and discomfort. His troubles
are over and he's rejoicing in Heaven. There was a celebration
welcoming Dave and I'm certain that God touched Dave's shoulder
saying "Welcome home my son". Without time as we know it, Dave
is waiting to once again reunite with his friends and loved ones,
welcoming each as they pass through the pearly gates.

Peggy, may God be with you and your family and may you rest in
the knowledge that Dave is smiling and looking down on you saying
"Rejoice, for I will see you soon enough."###imported-begin###Mike
